at the end of the cold war security concerns are more about regional and civil conflicts than nuclear or eurasian global wars stephen cimbala argues that deterrence characteristics of the pre cold war period will in the 21st century again become normative

issues of defence politics and policy have long been at the forefront of political agendas and defining of international affairs however the dramatic changes to the global system that have taken place since the end of the cold war and particularly since the terror attacks on the usa on 11 september 2001 have amplified the world's attention toward political and policy issues of national regional and global security the focus of this volume is on examining the fundamental causes of and defence policy responses to this new post 9 11 security environment edited by isaiah ike wilson iii and james j f forest of the us military academy west point usa this volume is international in scope with pieces written by experts in the field offering a collection of up to date and balanced insights on key contemporary issues of concern to defence policymakers the book will be an invaluable reference tool for academics and students researchers in international relations policymakers media professionals and government officials

this book examines the communicative aspects and implications of us counter terrorist policies towards al qaeda recent us counter terrorist strategy has been largely based upon projecting certain perceptions of america as an actor to those drawn to al qaeda and this book investigates in what ways and to what extent us officials believed that the signals sent by what america did and said could influence the behaviour of the terrorist and would be terrorist the study then draws on a growing understanding of that audience to analyse how those drawn to al qaeda were and indeed still are likely to be influenced by the perceptions of america that washington's policies generated the study's central argument is that given al qaeda's unconventional strategy and the particularities of the world view characterising those drawn to the group america's counter terrorist signalling proved largely counter productive to america's objective of undermining al qaeda's strategic narrative instead serving in many ways to validate it firstly this book seeks to reveal the significant and largely unexplored role that signalling has played in us counter terrorist policy towards al qaeda second it tries to capture the objectives strategy tactics ideology and other defining features of the world view characterising those drawn to al qaeda third it strives to combine those two lines of inquiry by applying the al qaeda world view to a critical analysis of the signals sent by us policies finally the book aims to offer broad policy implications that demonstrate how an informed understanding of the world view of those drawn to al qaeda can be employed to revise and refine american counter terrorist signalling this book will be of much interest to students of us foreign policy and public diplomacy counter terrorism strategy and international security joshua alexander geltzer has a phd in war studies from kings college london and is currently a

juris doctoral student at yale law school

this volume examines the explanatory nesting approach in the analysis of international relations and its continuing relevance in the 21st century international relations theory urgently needs strategies for coping with the growing complexity of the international system following the collapse of the us soviet bipolar stalemate the multiple challenges to us unipolar hegemony and the rise of powerful non western actors over the course of this book leading scholars of international relations and diplomatic history return to an approach to explanation pioneered in the writings of the late robert jervis the approach calls for nesting multiple layers of explanation systemic strategic and perceptual in an integrated causal account that is simultaneously parsimonious and nuanced highlighting the logic of strategic interactions under uncertainty it also integrates the effects of psychological biases and the unintended consequences of acting in complex systems to provide explanations that are at once theoretically rigorous and rich in empirical detail analyzing the current state of realist theory signaling under conditions of uncertainty and anarchy the role of nuclear weapons in international politics the role of cognition and emotions in economic and foreign policy decision making and questions of responsibility in international affairs the authors provide a compelling guide for the future of international relations theory this book will be of much interest to students of international relations foreign policy and security studies

leading experts examine how leadership perceptions by us and uk policymakers have influenced policies in the middle east since the cold war

ferguson and mansbach argue that international relations theory is subjective since it reflects attitudes grounded in social or political milieus they challenge the canons of realism and idealism and contrast normative poles such as mutability immutability optimism pessimism elitism nonelitism and competitiveness community they also argue that conceptual inadequacy inhibits theory while theoretical anarchy prevails among various contemporary non rational actor and foreign policy approaches isbn 0 87249 539 6 29 95

this two volume comprehensive guide is organized around the assumption that national and international security and arms control studies are interdisciplinary in nature volume 2 clarifies and defines selected current issues and problems from an international

perspective the chapters look at the scope of the emerging field of security and arms control studies as a serious field of systematic inquiry they serve as a critical review and evaluation of the most important literature within each sub field the chapters identify major problems key concepts methods disciplinary approaches intellectual styles and data sources security and arms control volume 2 is organized by sub field first contending contemporary perspectives on the international system itself as the source of conflict and war are presented the various facets of nuclear deterrence including implications for the possible use of nuclear weapons follow the focus then shifts to conventional military power in the system including arms transfers the incidence of subconventional or low intensity conflicts including the practice of and possible responses to terrorism is analyzed the book concludes with strategic arms control nuclear proliferation and the study of crisis decision making security and arms control volume 2 can be used as a text as well as serving as a valuable guide to the study of international and national security and arms control interested students and policy makers will find valuable material for their studies and research

this up to date text treats political philosophy and issues including the terrorist attacks of september 11 from a global perspective considering the virtues of both nationalism and cosmopolitanism as part of his aim of describing a comprehensive global political philosophy pojman devotes considerable attention to a defense of ethical objectivism over its ubiquitous rival ethical relativism

could world war i have been averted if franz ferdinand and his wife hadn t been murdered by serbian nationalists in 1914 what if ronald reagan had been killed by hinckley s bullet would the cold war have ended as it did in forbidden fruit richard ned lebow develops protocols for conducting robust counterfactual thought experiments and uses them to probe the causes and contingency of transformative international developments like world war i and the end of the cold war he uses experiments surveys and a short story to explore why policymakers historians and international relations scholars are so resistant to the contingency and indeterminism inherent in open ended nonlinear systems most controversially lebow argues that the difference between counterfactual and so called factual arguments is misleading as both can be evidence rich and logically persuasive a must read for social scientists forbidden fruit also examines the binary between fact and fiction and the use of counterfactuals in fictional works like philip roth s the plot against america to understand complex causation and its implications for who we are and what we think

makes the social world work

as the sole superpower the temptation for the united states to act unilaterally is strong yet what strategy is the u s pursuing in a region where cooperation is necessary to achieve policy goals applying theories of international cooperation this study analyzes a complicated test case for american foreign policy the oil resources in the caspian region are relevant for the u s objective of securing the uninterrupted flow to world markets but engagement in this region has effects on russian security interests and relations to iran violent ethnic conflicts further threaten stability in the area cooperation or unilateralism is thus the key question for the u s as unilateral action is likely to provoke massive conflicts cooperative behavior need not necessarily be more successful

theories of global politics the historical setting the modern era the power of states inside states the making of foreign policy international conflict state efforts to avoid conflict alliances arms and bargaining global security efforts international organizations law and ethics interdependence among rich states international political economy in the north the developing states in the international political economy regional economic integration in the global political economy the global environment and its inhabitants transnational actors the wave of the future globalization contemporary dynamics and the future of world politics

through a broad reaching collection of readings this text illustrates the second generation scholarship in foreign policy analysis it adopts a quantitative and positivist approach using real world examples and theoretical discussions to help bridge the theory and practice of foreign policy
