over 800 million people suffer from chronic hunger and over ten million children die each year from preventable causes these may seem like overwhelming statistics but as stephen smith shows in this call to arms global poverty is something that we can and should solve within our lifetimes ending global poverty explores the various traps that keep people mired in poverty traps like poor nutrition illiteracy lack of access to health care and others and presents eight keys to escaping these traps smith gives readers the tools they need to help people overcome poverty and to determine what approaches are most effective in fighting it for example celebrities in commercials who encourage viewers to adopt a poor child really seem to care but will sending money to these organizations do the most good smith explains how to make an informed decision grass roots programs and organizations are helping people gain the capabilities they need to escape from poverty and this book highlights many of the most promising of these strategies in some of the poorest countries in the world explaining what they

do and what makes them effective

provides a pathway into the Australian curriculum for primary teachers including practical guidance across a range of key learning areas

churches and individual Christians typically have faulty assumptions about the causes of poverty resulting in the use of strategies that do considerable harm to poor people and themselves when helping hurts provides foundational concepts clearly articulated general principles and relevant applications the result is an effective and holistic ministry to the poor not a truncated gospel a situation is assessed for whether relief rehabilitation or development is the best response to a situation efforts are characterized by an asset based approach rather than a needs based approach short term mission efforts are addressed and economic development strategies appropriate for North American and international contexts are presented including microenterprise development

Paul Spicker examines views about what poverty is and what should be done about it poverty means many different things to different people for example lack of money or dependency on benefits here he makes an argument for a participative inclusive understanding of the term
